

To Whom It May Concern:

This document is a brief description of CSAM, its strategies, owners and financial strength.

1. About CSAM

CSAM has established itself as a leading Nordic niche player in the specialised eHealth market, with a unique blend of best-in-class innovative technology, and outstanding human skills. We have 11 offices in six countries, employing 167 talented individuals.

Our leading product portfolio includes innovative niche solutions in connected healthcare, medical imaging, women and children's health, emergency and acute care, medication management, and laboratory information management systems.

The company's commercial headquarters are located in Oslo, Norway. CSAM also has local offices in Stockholm, Gothenburg, Karlstad, Copenhagen, Helsinki, Oulu, Tampere, Tromsø, and Warwickshire, as well as a wholly owned software engineering subsidiary in the Philippines.

We focus on our customers, using profits to strengthen our products and services, create a great place to work for our employees, and serve as a responsible business within the global community.

In October 2020, CSAM Health Group AS went public, and the stock is listed on Oslo Stock Exchange on Euronext Growth (Merkur Market) with the ticker code [CSAM-ME](#).

Among the many strong financial investors behind CSAM, one will find high quality names such as TIN fonder and Rhenman & Partners. At the time of writing, CSAM has a market cap of NOK ~1.8 billion and substantial cash reserves on the balance sheet.

2. Acquisition of CSAM Sweden AB

Through organic and acquired growth over the last years, CSAM has transformed into a leading Nordic eHealth company with operation and sales in all four Nordic countries.

In 2016, CSAM acquired the eHealth part of Mawell, and the Swedish part of its operations were used to form CSAM Sweden AB. Mawell was in severe financial distress at that time, and it took a considerable amount of time and effort to clean up and streamline the operations. Belated payments relate back to this acquisition and this period of time.

For the record, all outstanding payments are regulated, and no further incidents have taken place in nearly three years.

3. Summary

With strong growth, a diversified Nordic customer base, healthy margins, and a strong cash position in combination with robust and long-term financial investors, we are confident that CSAM Health Group AS, whether directly or through one of our subsidiaries, will be regarded as a highly attractive business partner and software solution provider for any discerning customer.

Kind regards

For CSAM Health Group AS

Einar T. Bonnevie
